The Debate.

The debate and other exercises drew a large crowd at the Lindsey-Wilson Chapel last Saturday evening. The students who participated were highly complimented. "Ole Miss" by Miss Poly, was well received; the Journal read by Miss Gabbert, contained many spicy hits, and the musical selections, by Misses Hodges and Howard were charmingly rendered. The debate, however, was of special interest. The speakers were from the two rival societies, the Frog and Columbian. D. H. Lyon and Eugene Hauk represented the former and M. R. Gabbert and Fred Rainwater the latter. The debate was well received, "That the Death Penalty should be abolished," Gabbert and Rainwater affirmed and won the question. The speeches on both sides were argumentative and delivered admirably. The Judges were T. L. Hulse, James Garrett and J. W. Flowers.

Watch for the News next week. Russell & Co's. Big Opening "Ad" will appear.

DEATH OF DR. H. C. JACKMAN.

The End Came at Ingram, N. M., February 24, 1910, After an Illness of 28 Hours.

KNOWN TO A GREAT MANY COLUMBIANS

Dr. Jackman was born in or near Craelabor, in Russell county, Kentucky, April 2, 1844; and there he lived the greater part of a long and most useful life. In the capacity of practicing physician, he was well known throughout several counties in all of which he will long be remembered, both as a good doctor and the kind friend. The passing generation and the one now in its prime will alike mourn the death of one of those whom no one was more esteemed by those who knew him.

For many years a Mason, the funeral services were conducted under the auspices of that order, and the remains interred in Eliza cemetery. The deceased is survived by a widow and 3 sons, all of whom were present at his death. To the survivors, his friends extend the hand of sympathy, parting in silent understanding. "There is no Death, what seems so is Illusion."

This life of mortal breath is but a suburb of the ethereal, Whose portal we call Death." F. C. Smith.

Crawford was chosen teacher with Capt. W. W. Bradshaw and Mrs. Georgia Shelton, Assistants. The methods of work and organization of the International Adult Class will be followed.

The Light Plant.

The people of Columbia were very much gratified last Friday night when the electric lights again came on after the town had been in darkness for six weeks. Messars Ballard & Murrell, the owners of the plant, sent the dynamo to Louisville and had the plant in the care of a skilled electrician for one month. When it was returned it was the means of furnishing stronger and brighter lights than at any time in the past. It is an admitted fact that Columbia can not well get along without an electric light plant, and it is also the general opinion of this community that every family who is able should support the enterprise. The proprietors have been at considerable expense and trouble to create a greater quantity of money in building an electric house in which to keep the plant and they should be met with prompt and substantial encouragement. We hope that those who are not taking lights will apply for them at once. It is an enterprise that must be supported, an enterprise that the business men and citizenship generally can not do without.

The will of the late J. J. Biggs was probated in the Adair County Court last Monday. His entire estate, real and personal, goes to his wife during her life. At the death of Mrs. Biggs the decedent's estate goes to his heirs and his wife's heirs at law. Mrs. Biggs is made the executor without bond.

Two Horses Killed in R.R. Accident

Last Thursday afternoon Cloud Edington, who runs a team between Columbia and Campbellsville landed in the latter town with a load of chickens shipped from the Columbia branch of the Northern Egg and Poultry Company. It was about 5 o'clock, and as a train was not due until 9, Mr. Edington drove on to the switch and was preparing to unload, when suddenly a special made its appearance, ran into the wagon, killed the two horses, destroyed a number of coops and killed quite a lot of chickens for the poultry company.

It is believed that Mr. Edington and the poultry company will recover from the L. & N. R. R. Co.

Mr. Taft's Injustice to Himself.

On the 22nd of September, 1908, Mr. Taft, then a candidate, said at Chicago:

"The revision of the tariff which Republicans desire is a revision which shall reduce excise rates and at the same time preserve the industries of the country *** I wish there to be no doubt in respect to revision of the tariff."

On the 16th of December, 1908, Mr. Taft, the president-elect, said in New York City:

"Unless we act in accordance with our promises *** we shall be made accountable to the American people and suffer such consequences as failure to keep faith has always been visited with. It would be better to have no revision at all unless we are going honestly and fairly to revise the tariff on the basis promised by our party."

On the 30th of June, 1909, Mr. Taft, the president of the United States, said in New Haven:

"Now I venture to say that if the republican party does not live up to its promises, and what the people expect of it, it will be relegated to a position like that of his majesty's opposition."

On the 5th of August, 1909, when President Taft signed the Payne-Aldrich bill, he said:

"This law is not a perfect tariff law or a complete compliance with the promises made in the republican platform, strictly interpreted."

On the 12th of February, 1910 (last Saturday, speaking again in New York, President Taft said:

"Nothing was expressly said in the platform that this revision was to be a downward revision. *** I therefore venture to repeat the remark that I have had occasion to make before, that the present custom law is the best that has ever been passed."

The president is doing his best for Messrs. Cannon and Aldrich, but he is strangely neglectful of himself.—New York World.

Of Course it is Dangerous.

The American mistletoe, a parasite plant, is dangerous not to American girls at Christmas time, but to trees in some sections of the country, particularly Texas, according to a report to the Department of Agriculture, by Prof. William L. Bray, formerly a special agent in the office of investigations of forest pathology.

"Speaking generally," said Professor Bray, "the mistletoe is held in rather high regard everywhere because of its inherent interesting mode of life, because of the traditional and historical atmosphere which invests the original mistletoe of Europe and because of its desirability for the above and other reasons, as a decorative Christmas shrub."

"The fact that it is a parasite implies a possible injury to the tree upon which it grows, but again, speaking generally, the injury is regarded as comparatively slight and more than offset by the feeling of regard for the parasite. Among the people who see it rarely, and especially among those living in Northern cities who purchase small sprigs or bunches of it at a good price for Christmas decoration, the idea of mistletoe being a harmful parasite on trees is quite lost sight of."

"Nevertheless, there are localities in which mistletoe becomes so abundant upon trees and so harmful to them as to make the control of it or its extermination a serious practical question. This is notably the case in parts of Texas."

Bill Nye Correct.

Bill Nye had the truth well

told when he said: "A man may use a wort on the back of his neck for a collar button; ride on the back coach of a railroad train to save the interest of his money till the conductor gets around; stop his watch at night to save wear and tear; leave his 'i' or 't' without a dot or cross to save ink; pasture his mother's grave to save corn, but a man of this sort is a gentleman and a scholar compared to the fellow that will take a newspaper two or three years and when asked to pay for it put it back into the office and has it marked 'refused'."

Members of the Kentucky Federation of Women's Clubs are wondering what has become of the bill providing for the creation of the Kentucky Library Commission, to consist of five persons to be appointed by the Governor. This bill was introduced in the Senate and was referred to the Senate Committee on Libraries and Public Buildings. No report on the bill has been made as yet. The bill is looked upon by many as a most excellent one. It provides that at least one member of the proposed commission shall be a woman, who shall be appointed by the Governor from a list of at least three names to be presented by the Kentucky Federation of Women's Clubs.

"Seek ye first the kingdom of God"—this is the Master's bidding and the burden of the whole Sermon on the Mount. The kingdom of God is the kingdom which Jesus came to preach, and in the establishment of which He suffered death on the cross. It is the kingdom into which we are all invited to enter, and to which we owe the best that there is in us. It is a kingdom of joy, of love and of service, and unlike all earthly kingdoms it is one that shall endure forever.

A Prayer.

At an annual meeting of conductors and engineers, sometime ago, Rev. George R. Stuart, one of the favorites of the railroadmen of the South, was asked to take part and open the meeting with prayer, says an exchange. He was loudly applauded as he entered the platform and stepped upon the platform to offer prayer. The railroad men with their wives and daughters present reverently bowed their heads and Geo. Stuart, with trembling lips and deep emotion, offered the following prayer, and as he left the platform a dozen men gripped his hand and brushed a tear from their eyes:

"O Lord, we meet as a body of railroad men with our wives and daughters, to consult for our interest. We are reminded that life itself is a train and the road to heaven a railroad; God's truth the rail; God's love the fire, and His promises the signal lights. O Lord, we recognize Thee as the General Manager of our road, the Superintendent of our train and Chief Dispatcher. Thou didst signify the right-of-way, and Thy Son purchased it with His blood. Thou didst lay the track and ballast the road. Thou has furnished the rolling stock; Thou art the owner and controller of all. We look to Thee for all of our orders, and Thou must sign the checks for our daily bread. Be merciful in handling our human mistakes and blunders and do not discharge Thy unworthy servants.

"We are grateful for the Bible, Thy book of rules and instructions; be merciful in our examination and look with charity upon our failures. Thy promises and warnings are our headlights and hand lanterns; help us to use them so as to save our train from wreck. Deliver us from broken rails, blind switches, false signals, and mistaken orders. Be with us on every high bridge of responsibility, on every sharp curve of emergency, and in every dark tunnel of trouble let the light of Thy promises shine out bright. Grant us passes for our wives and children, and let them go with us. When the storms of temptation and trial come, save us from the fatal slide and washouts that have wrecked so many trains on the road of life. Let our way be kept secure by Thy guardian care, always show the steel rail and rock ballast and be solid and firm and free from obstruction. Deliver us from the snares of our enemy. May the headlight of Thy truth shine bright on a thrown switch, false signal or fatal obstruction placed for the wreckage of our train. May the emergency brake of a strong will save us.

"As we make our last run, headed homeward, if it be Thy will, order our train in on time. Let the light of Thy promises burn bright to light the dark tunnel of death. As we run through it to the Grand Central Station of the skies, may we have approving smile of the General Manager and Superintendent; sign with joy the payroll, receive our wages and have an eternal lay-off with God and the angels and the loved ones at home. And we will praise Thee forever. Amen."—Central Methodist Advocate.

Two newspapers, one in Chicago and the other in Baltimore,

have talked with each other by "wireless," though 1,000 miles apart. This is reported to be the longest distance on land for successful communication of this kind, and experts allege that a thousand miles over the land is equal to 3,000 at sea. Be this as it may, the incident is of interest as showing the development of wireless telegraphy. There is on doubt that the system is constantly enlarging the scope of its usefulness.

New Presbyterian Paper.

As an outcome of the litigation growing out of the union of the Presbyterian and Cumberland Presbyterian churches, a new Presbyterian weekly, called the "Presbyterian Advance" has appeared in the journalistic field.

The Supreme Court of Tennessee has ordered that the Publishing House at Nashville, Tenn., which includes the "Cumberland Presbyterian," a weekly paper published by that House, be turned over to those Cumberland Presbyterians who opposed the union of the churches. This resulted in a peculiar situation. Since the union, the "Cumberland Presbyterian" has been published in the interest of the united church and practically all of its subscribers, of which it had about 10,000, mainly in the South and Southwest, are Presbyterians. By the action of the court, these Presbyterians are now getting a paper which is opposed to the very policies advocated by the paper for which they subscribed.

Dr. J. E. Clarke has been for a number of years editor of the "Cumberland Presbyterian." He is an ardent advocate of the union. When the paper was turned over to the anti-unionists, Dr. Clarke promptly severed his relation to it and at once organized a company to publish a new paper for those Presbyterians who had been subscribers to "Cumberland Presbyterian" but would not want it after it passed into the control of those who opposed union.

The new paper is of the same general character as was the "Cumberland Presbyterian" and is published at the same price. Dr. Clarke is the editor and with him are associated Dr. T. A. Wiggin, Dr. F. K. Farr, Rev. W. B. Preston, of Dallas, Texas, and others who were on the editorial staff of the "Cumberland Presbyterian."

The "Presbyterian Advance," having no legal right to the list of the old paper, has had to start off as an entirely new venture, but it is said that subscriptions are coming in at a lively rate. Dr. Clarke has become well-known as a vigorous writer who published a bright, helpful religious weekly. It is expected that the new paper will quickly have a larger subscription list than the old, for large numbers of subscribers would not renew for the "Cumberland Presbyterian" fearing that they might soon be getting the very opposite of the paper for which they paid.

Associated with Dr. Clarke in the new enterprise are some of the best known men in the Presbyterian Church, among them Dr. B. P. Fullerton, who was Moderator of the General Assembly in 1908, and Dr. Ira Landrich, who was the Moderator of the Cumberland Presbyterian General Assembly which voted for union with the Presbyterian Church.

Happiness.

To the convict it means getting out.

To the social climber it means getting in.

To the hypochondriac it means getting well.

To the ambitious man it means getting there.

To religious it means getting to heaven.

To the unhappily married it means getting loose.

To the young man in love it means getting "solid."

Happiness means different things to different people.

To the selfish man it means getting what he wants.

To the young woman in love it means getting kissed.

To the philanthropist it means getting other people what they want.

In any case you will notice that "happiness" and "getting" are pretty closely related.—Sunday Magazine of the Pittsburgh Dispatch.

The Ripper bill was passed by the Senate last week and will be vetoed by the Governor this week. After the Governor puts his disapproval on the measure a chance to make it a law by a two-thirds majority remains, but from its passage it appears that such a majority does not quite exist. Plainly speaking no such measure should ever become law. A fair, square deal ought to be handed to every man and to both parties. Legislation to advance party interests is not right. The Ripper bill is not a measure full of merit, but one designed to deprive a man of one party of his just rights and aid the Mayor of Louisville in building a strong political organization. We are glad to state that Senator Bertram, of this District, voted against it. He is representing the people who elected him who stand for honesty on every proposition.

Every farmer ought to sow oats. The corn will soon be hard to get and oats will come in at the right time this year.

You don't hear so many telling of the greatness of President Taft. Before his election he was said to be a powerful large man.

Dr. B. C. Hyde has been indicted, charged with murdering Col. Thomas H. Swope and Chrisman Swope. He is also charged with trying to kill other relatives of Col. Swope. There are thirteen counts. It will be remembered that Col. Swope was a very wealthy man. Dr. Hyde being his nephew by marriage.

The Adair County News renders its profoundest sympathy to R. W. Brown, managing editor of the Louisville Times, who was recently bereft of a loving mother. The end came at the home of a son, in Nashville, Tenn., and the interment was in the (Russellville, Ky., cemetery. Mrs. Brown was in her 83d year. She

was a lady intellectually strong, a writer of great ability.

Former U. S. Senator Thomas C. Platt, of New York, is dead.

The Confederate pension bill has passed both Houses of the Kentucky Legislature and is now in the hands of the Governor.

By a party vote with the exception that Senator Chamberlain voted with the Republicans in favor of the measure, the Senate last Saturday passed the Administration postal savings bank bill. Amendments were adopted which provided that in time of war or in other exigencies involving the credit of the nation, funds in postal savings banks may be invested in Government other than the 2 per cent. bonds and also that depositors may withdraw their money from these banks upon demand.

Mrs. Marion Morris has been on the sick list for the past few days, but is soon better at this writing.

Melvin Petty went to Russell Springs last Sunday. His cousin, Miss Lizzie Petty, of that place, accompanied him on his return trip and will visit relatives in this section for the next few weeks.

Mr. Henry F. Gaston, of Rugby, informed me last Tuesday that he would leave in a few days for Oklahoma where he intends to make his future home.

Landy Stotts sold a horse to W. R. Royston for \$35.

A mule belonging to Tyler Williams got in the field with John Thurman's sheep and killed several of them. It would be advisable, I think, for the farmers of this section to go out of the sheep business for awhile, for it seems that the decree is against them.
